

## **Indiana Center for Biomedical Innovation (ICBI) Fellow 2018 GUIDELINES FOR APPLICATION**

The Indiana Clinical and Translational Sciences Institute (Indiana-CTSI) is offering a unique opportunity to postdocs for an appointment as ICBI fellow at the Indiana Center for Biomedical Innovation (ICBI). All postdocs currently pursuing research at the CTSI partner institutions (IUSM, IU, Purdue, IUPUI, Notre Dame) are eligible to apply for the ICBI fellow position. The ICBI fellow will receive structured training in translational research and entrepreneurship. The ICBI fellow will undertake a project involving research on the development of life sciences technology pertaining to human health and disease. The project could include research on the development of therapies, diagnostics, or medical devices. The ICBI fellow will work in an entrepreneurial ecosystem at ICBI. The position will have significant opportunity to work with startup companies and access to private sector companies including, pharmaceutical and medical device companies. ICBI and its startup companies are conducting research on a wide range of bio-medical topics. The training is on experiential research, supplemented with seminars and invited talks that will help the fellow consider a scientific career in industry. The ICBI fellow will participate in grant writing and publications. The ICBI fellow position is a one-year in duration with the option to re-apply for a second year.

Additional information on the ICBI is available at <http://www.in-bioinnovation.org>

### **Eligibility:**

- Applicants should have two or more years of post-doctoral experience.
- **Application deadline: August 15, 2018**

### **Application Process:**

1. Application requires demographic information, a 250 word description of the current research experience and a recent CV.
2. Submit the application using the **Start a Submission** link found here: [CTSI ICBI Fellow Link](#)
3. For more information, please contact Dr. Padma Portonovo at [pportono@iupui.edu](mailto:pportono@iupui.edu)
